

RECLAMATION, REMEDIATION & SPILL MANAGEMENT

Summit Liability Solutions is the leader in providing reclamation, remediation and spill management services to the oil and gas industry. Experienced and knowledgeable in all provincial regulations, guidelines and industry recommended practices (IRPs), we deliver practical and cost effective solutions for a wide array of environmental challenges and situations.

RECLAMATION AND REMEDICATION SERVICES

Summit utilizes skilled project managers and field technicians with various education and experience to provide the following services:

- Phase I, II, III Environmental Assessments
- Stage 1 and Stage 2 Assessments
- Risk Assessments
- Reclamation Supervision and Reclamation Programs
- Detailed Site Assessments (DSA)
- Reclamation Application Certificate Services
- Certificate of Restoration Services
- Contaminated Site Management
- Pipeline Reclamation Services
- Restoration Project Management
- OSE Reclamation Programs
- Underground Storage Tank (UST) Removal
- Well Siting
- Groundwater Monitoring – Well installation and sampling
- Retention Pond Sampling
- Gas Migration and Surface Casing Vent Flow Testing
- Surface and Downhole Abandonment Services
- Suspended Well Audits
- Hydrovac Soil Management & Recycling
- Flare Pit Remediation Services

SPILL MANAGEMENT SERVICES

Summit has extensive experience managing a variety of accidental releases - both refined and unrefined - at well sites, pipelines and facilities. Summit has trained responders and project managers with the ability to manage each unique situation with cost effective remediation or environmental risk management solutions.

SUMMIT ADVANTAGE

Summit's greatest asset is our **educated and experienced** personnel. Our team has the **technical knowledge** and **background** to complete projects **on time** and **on budget**. This **diversified** group has grown to include professional agrologists, chemists, hydrogeologists, biologists, foresters, APEGGA and other certified professionals. We have been very successful in completing projects in a timely manner, bringing closure to sites, and achieving reclamation/restoration certificates quickly and efficiently.
